

10. Rune Factory 5 Character Roleplay Equipment Collection

English Translation Draft

Status: Private Staging / **Source:** Japanese Canonical / **Translation Review:** IN PROGRESS / **Production:** NOT APPROVED. Creating or saving this translation does not grant authority to add, overwrite, move, or delete files in the Production folder.

Term boundary (Current): "Self-contamination (自己混入)" in the text is the name used in the old document. Current uses "Performance-source Contamination (性能元混入)" temporarily, but the exact unit of the phenomenon, the conditions under which it occurs, and the boundary with Recursive Processing (再帰処理) are still unresolved. The old text retains its notation as Historical State.

What this final version protects

This article does not aim to replace the contents of the previous edition with an abbreviated version. Staging Artifact to integrate updated boundaries in subsequent material while retaining the following elements retained by previous editions:

- Reasons for selecting equipment for each character and Decision Context
- Distinction between romantic construction and real construction
- Feasible arrangement materials/strengthening order
- Advantages/Disadvantages/Creation load/Intended characters
- Reference catalog of initial equipment, weapon types, shield equipment availability, attributes, etc.
- Observation, external information, interpretation, practical suggestion, unknown distinction
- Source Lineage to return to Reality later

Source Lineage

This final version refers to the following actual files with different identities.

1. Public version 10_Roleplay equipment research.pdf (106 pages. 5,158,672 bytes as of 2026-08-08)
2. Public version 09_High difficulty inheritance and actual operation.pdf (Current reference source for shield performance/dual sword/fist boundary. Includes revised insertion section 9-5-5A)
3. csv/99_Appendix_AI coordination plan example/4 files below
4. csv/99_Appendix_List of equipment by purpose/9 files under
5. List of currently unresolved matters presented by Human HQ (item-by-item verification completed/Finding reflected)

The prose and tables from the previous version of Document 10 and the CSV-derived tables are presented as separate source groups. The AI coordination proposal is a record of candidate generation experiments and will not be promoted to the Human HQ-approved final equipment table for each character.

Evidence Boundary

Observation

Contents confirmed through actual play or stored actual materials. Includes shield effects, equipment restrictions, display, creation results, etc. However, do not generalize to internal specifications beyond the observation conditions and confirmation range.

External information

Information obtained from in-game explanations, official explanations, external materials, etc. Items with unrecorded sources will not be treated as officially confirmed.

Interpretation

Interpretation based on character characteristics, worldview, appearance, AI trends, etc. There may be multiple reasonable options.

Practical Recommendation

Practical proposals considering success rate, material load, mass productivity, operability, etc. It is not the only correct answer or proof of internal specifications.

Unknown / Pending

Matters for which verification, cross-checking, and approval have not been completed. Do not convert Unknown to blank or assert.

Current boundaries regarding shield performance

old understanding

Earlier versions of Document 09 and the legacy CSV treated shield stats and resistances as disabled when Dual Blades or Fists were equipped in both RF4SP and RF5. Based on that

understanding, those builds added Object X and Mealy Apple (無力のリンゴ)s to shoes or accessories to compensate for elemental resistances.

Observation: Main character side update

In the current release version 09, the inheritance direction of the main character equipment of RF4SP and RF5 has been swapped, and the following directional asymmetry has been confirmed in the actual gameplay.

- Performance source: Claymore/Complete appearance: Dual Blades → Effects derived from the shield have been reflected.
- Performance source: Dual Blades/Complete appearance: One-handed sword → Effects derived from the shield were not reflected.

Therefore, at least with the main character's equipment that was confirmed this time, it cannot be determined that the shield performance is uniformly unavailable just because of the appearance category of the completed weapon. This is consistent with the interpretation that Messhilitte Inheritance refers to the properties derived from the weapon category that is the source of performance.

External information: Resident side

Residents have been provided with the following information:

- Depends on the final weapon appearance category.
- Dual swords and fists usually do not have shield effects.
- By mixing dragon scales with strengthening materials, it is possible to apply 50% status and 100% resistance.

However, as of the current revision of Document 09, this study has not independently re-tested the same conditions. Even if the information is adopted as a practical recommendation for residents, it must not be promoted to Observation.

Practical Recommendation

- Protagonist: By selecting a category based on performance that can use shield performance, conditions have been confirmed that allow the completed appearance to be Dual Blades and fists and use shield performance.
- Alternative measure for the protagonist: If priority is given to the performance category, design that does not depend on shields, appearance, and manageability, the old configuration that supplements resistance with shoes and accessories remains as a conditional alternative.
- Residents: The results for the protagonist are not generalized, and are treated as a separate design that includes the final appearance category and reinforcement reflections from dragon scales.

Unknown

- Information held and referenced internally
- Reference point and processing order for shield performance
- Scope and exceptions for all weapon categories
- Detailed judgment processing by residents
- Independent re-examination of resident reflection using dragon scales

Old 10 texts (Decision Context storage)

The following retains the main text of the old version 10, excluding printing noise such as page numbers. The representative equipment proposal included here will not be expanded into a new final table for 25 people without any basis.

10. Role-play equipment research One-line summary Role-play equipment is an area of multi-axis optimization that integrates not only numerical performance but also worldview, character characteristics, appearance, and actual operational performance.

In this chapter, we will organize the "roleplay equipment" in RF4SP / RF5, taking into consideration the following: •World view consistency •Character characteristics •Actual operational performance •Difficulty of inheritance •Creation cost •Appearance •Play feel, etc.

This chapter is not intended only for the following purposes: - Pure theoretical optimization - Maximum firepower configuration - Maximum efficiency.

So far in this document, we have summarized the inheritance specifications and internal processing: •Number of candidates •Self-contamination •Auto-arrangement •Recursive inheritance •Success rate •Actual operational stability, etc.

However, in actual play, it is not just the simple theoretical values: •Does it suit the character? •Does it match the world view? •Is it highly visible? •Is it easy to replace? •Is it easy to use on a daily basis? •Does it make you feel good while playing? These factors can have a big impact on the satisfaction level when playing for a long time.

Therefore, in this chapter: Equipment construction is organized from the perspective of not only ``performance" but also ``operational experience."

In addition, roleplay equipment is not polarized between: •Purely novelty-oriented build •Fully performance-oriented build, but is often located somewhere in between.

For example: •Performance may be compromised to a certain degree •Prioritize creation success rate •Prioritize visibility •Prioritize mass production •Leave the initial equipment image, etc. Compromises with actual operation may occur.

In this chapter, we will organize such matters, including the ``coordination that exists between theory and practice".

10-1. Worldview consistency

One-line summary When building equipment, important factors include not only numerical performance, but also consistency with the worldview, such as the character's personality, weapon type, stance, and attributes.

In the RF series, each character is given a certain worldview image based not only on equipment performance, but also on: •Character design •Occupation •Attribute •Battle style •Favorite food •Tribe •Personality •Position •Event description etc.

Therefore, when considering role-play equipment, it is important to consider: •Which attributes to prioritize? •Which impressions to prioritize? •To what extent do you want to keep the original image intact?

For example: - Priscilla (プリシラ) is magical, healing, and has a soft impression - Ludmila (ルドミラ) is dark, bewitching, and dangerous - Murakumo (むらくも) is dynamic, Japanese-style, and physical - Reinhard (ラインハルト) is a knight, loyal, and honest - Lucas (ルーカス) is mystical, philosophical, and transcendent, etc. Each character has a very different orientation.

Also, even for the same character, the direction may change depending on: - ideal image - closer to initial equipment - closer to low cost - closer to actual combat.

Therefore, in this chapter, some characters are separated and organized into •romantic frame •realistic frame.

In the romantic frame, priority is given to: •Worldview, •Image, •Symbolism, •Appearance, •Setting reproduction, and in the practical frame, priority is given to: •Success rate, •Creation cost, •Mass production, •Difficulty of implementation, •Actual operability.

This is because the inheritance specifications of RF4SP/RF5 include equipment that requires: •High difficulty inheritance •Messhilité inheritance •Auto arrangement avoidance •Self-contamination countermeasures, etc.

Therefore, even if it is ideal in theory, in reality: - 10% success rate - Extremely high material load - Difficulty in mass production - High cognitive load - In actual operation, different equipment may be adopted.

10-2. Equipment by character

One-line summary Select equipment that balances performance and worldview based on each character's combat image, physique, AI tendencies, and attribute suitability.

Character Romantic Axis Reality Axis Concept Summary
Priscilla Magical girl/Neat type
Mass-produced magic equipment Healing heroine + soft magic type
Ludmila Bewitching/Dark magic Dark composition with emphasis on success rate
Dark attribute + Succubus-like mysticism
Murakumo Japanese-style hero Heavy class practical avant-garde
Thrilling/physical type/Innkeeper
Ryker (リュカ) Mysterious/Transcendent Mysterious composition with attributes
Philosopher + Divine image
Darroch (ドグ) Heavy blacksmith Practical heavy armor Rugged, heavy class, blacksmith
Reinhard Kingdom knight Initial equipment collection Loyal, honest, orthodox knight
Scarlett (スカーレット) SEED elite Light armor for actual battle Sense of justice +

high-speed combat Ryker (Ryker) Chuunibyou/Dark Light practical type Seal/Evil eyes/Nimble type Margaret (マーガレット) Elf/Music Light armor for magic Wind attribute + bard impression Radea (レディア) Koshinryu Dark armor Inhuman presence + dark attribute

In this section, we will organize examples of equipment based on each character's: - Worldview - Combat Style - Attributes - Impression - Personality.

Note that if all characters were included in the main text, the amount of information would increase dramatically, so only representative examples are included in this chapter.

A detailed list is provided separately in 99_Appendix_AI Coordination Plan Examples.

Priscilla Roleplay Frame - Shield: Prism Shield - Armor: Rune Vest - Shoes: Leather Boots - Accessory: Heart Pendant Prioritize the image of a healing heroine + cane user. Emphasis is placed on soft colors and neatness. Practical frame - Shield: Magical shield - Armor: Shirt - Shoes: Leather boots - Accessory: Heart pendant A configuration that maintains the character of a magical heroine while keeping the success rate and material load low.

Ludmila Romantic Frame •Shield: Magical Shield •Armor: Lamellar Vest •Shoes: Ghost Boots •Accessories: Witch Earrings Prioritize bewitching, dark attribute, and succubus-like image. Emphasizes dark attribute and magic accessories. Practical frame - Shield: Magical Shield - Armor: Lamellar vest - Shoes: Leather boots - Accessories: Witch's earrings Considering the success rate problem of ghost boots, only the shoes have been changed to a mass-produced configuration.

Murakumo Romantic Frame •Shield: Great Shield •Armor: Sarashi •Shoes: Tetsugeta Shoes •Accessories: Champion Belt Emphasizes the image of a Japanese-style, dynamic, hot spring innkeeper. Prioritizing the weight of a physical person. Practical frame •Shield: Great Shield •Armor: Sarashi •Shoes: Heavy Boots •Accessory: Champion Belt Considering the difficulty of inheriting Tetsugeta Shoes, replace with heavy boots.

Lucas Roleplay Frame •Shield: Protective Shield •Armor: General Robe •Shoes: Rocket Wings •Accessory: Talisman Emphasizes mysticism, transcendence, and the impression of a philosopher. A composition that prioritizes attributes and floating feeling. Practical frame •Shield: Elemental Shield •Armor: Wind Cloak •Shoes: Fairy Boots •Accessory: Magic Stone Earrings Maintains a mystical image while lowering the success rate and implementation difficulty.

Doug (ダグ) Roleplay Frame •Shield: Heavy Shield •Armor: Powered Protector •Shoes: Heavy Boots •Accessories: Proof of a Hero Emphasis on solidity, blacksmiths, and physicality. Prioritizing the feeling of pressure from heavy equipment. Practical frame •Shield: Heavy shield •Armor: Lamellar vest •Shoes: Heavy boots •Accessory: Concentration earrings A configuration that maintains the impression of a blacksmith while reducing the difficulty of creating armor.

10-3. Compatibility with actual operational performance

One-line summary Role-play equipment requires a design that maintains its appearance while ensuring practical performance by combining performance inheritance and resistance enhancement.

When it comes to role-play equipment, it's not just the simple appearance that matters: • Combat performance • Easy to use • Running efficiency • Resistance • RP management • Inheritance stability, etc. are also important. Therefore, in this document, we do not focus on complete appearance, but also on whether it is actually easy to use. For example: • Excessive movement speed increases the difficulty of operation. • Heavy equipment has high visibility but tends to have problems with success rate. • Accessories are prone to self-contamination problems. There are cases where appearance and performance conflict.

In RF4SP and RF5, powerful upgrades can also be made with Object X, Mealy Apples, Tablet of Truth, Tenfold Steel (10倍鉄), and Double Steel (倍鉄). Independently of appearance, these materials can reinforce elemental resistance, critical rate, and status resistance.

Therefore, it is important to balance the following: - Appearance - Performance - Inheritance difficulty. Especially for the main character's equipment: • Shoes • Accessories are frequently replaced, and visibility and distinguishability are also important in actual operation. Therefore, this document is organized with an eye toward reducing cognitive load, including: • colors, shapes, icons, character images, etc.

10-4. Design priority inheritance

One-line summary The inheritance system that separates external appearance and internal performance allows performance to be optimized while maintaining the initial equipment appearance and worldview-oriented design.

In the inherited specifications of RF4SP/RF5, not only performance is important, but also ``which appearance to adopt". In particular: • Shields • Shoes • Accessories have a large impact on visibility.

Therefore, in this document, the appearance is selected according to the application, such as: • Prioritize performance • Prioritize visibility • Prioritize worldview.

For example: - Priscilla has a soft color - Murakumo has a sense of weight - Lucas has a mysticism - Darroch has a profound feeling, etc. The appearance icon itself is also treated as a role-play element.

In addition, in the case of accessories, there are problems such as: • Self-contamination • Auto-arranging • Increasing number of candidates, so even if they are theoretically high-performance, • Creation difficulty • Mass production • Reproducibility may be prioritized and separate equipment may be adopted.

In particular: • Fluffy Scarf • Accessories that are easily mixed in with each other are separated into romantic configurations and actual operational configurations.

10-5. Coordination example

One-Line Summary Through construction examples of knight-type, magician-type, Japanese-style swordsman, etc., we will show how to select equipment that emphasizes not only performance but also uniformity of appearance and character.

Lineage Main targets Keywords Knights Reinhard, Scarlett, Beatrice (ベアトリス) Heavy armor/loyalty/orthodox Magic Priscilla, Ludmila, Margaret Mysterious/light/attributes Physical types Murakumo, Doug, Martin (マーティン) Heavy/dynamic/muscle Mysterious Lucas, Radea, Misasagi (みささぎ) Transcendence/darkness/floating Children Julian (ジュリアン), Hina (ひな) Light, cute, simple Craftsman Palmo (パルモ), Heinz (ハインツ), Martin Work feel/craftsmanship/personality

In this section, we will summarize typical coordination examples.

Knight-type, Reinhard, Scarlett, Beatrice, etc. Focus on shields and metal armor, and emphasize impressions such as knights, royal soldiers, and bodyguards. Also: •Night boots •Platinum ring •Badge of courage etc. are used to create a sense of knighthood and loyalty.

Magic type, Priscilla, Ludmila, Margaret, etc. Focusing on robes, magic shields, and mystical accessories, we create images of wizards, spirits, mysticism, etc. It also goes well with equipment that has a light and floating feel, such as fairy boots and elf cloaks.

Physical type, Murakumo, Darroch, Martin, etc. Focusing on heavy shields, heavy armor, heavy boots, etc., it represents characters such as blacksmiths, heroes, and muscular types. It goes well with HP accessories such as champion belts and proofs of heroism.

Mysterious type, Lucas, Radea, Misasagi, etc. Using elemental shields, dark accessories, fairy boots, etc., he creates inhuman images such as •Divinity, Ancient God Dragon, Demon Fox, etc.

10-6. Romantic composition and practical composition

One-line summary There are multiple optimization axes for equipment construction, such as the strongest in theory, the best in actual operation, and the best in role play, and the optimal solution changes depending on what you prioritize.

Organizing composition ideas Composition ideas Priority elements Romantic composition Worldview/symbolism/appearance Practical composition Success rate/mass production/reproducibility Eclectic composition Balancing RP and actual operation Hobby composition Playfulness/comfort/attachment

In this document, roleplay equipment is divided and organized into: •roleplay configuration •Practical configuration. In Romantic composition: •Worldview •Appearance •Set reproduction •Symbolism are given priority. Therefore: •10% success rate •High cost materials •Difficulty in mass production, etc. may be tolerated.

On the other hand, in a practical configuration, give priority to: •Mass productivity •Success rate •Creation load •Reproducibility •Daily operation. For this reason: •Replacement with low-cost equipment •Change to 25% success rate configuration •More initial equipment •Reducing the material load, etc.

In addition, in the inheritance specifications of RF4SP/RF5, due to problems such as: - inheritance success rate - self-contamination - auto-arrangement - increase in recursion

candidates, even if it is possible in theory, reproducibility may be extremely poor in actual operation.

Therefore, this document places emphasis on: ``Can it actually be continuously operated?" This is not a simple compromise, but is based on a design concept that takes into account factors such as: • Comfort • Cognitive load • Work load • Operational stability When playing the RF series for a long time.

In addition, since roleplay equipment exists in the boundary area between: - Performance - Worldview - Actual operation, there are often no completely correct answers.

Therefore, in this chapter, rather than simply presenting the optimal solution, we focused on ``what kind of thinking should we use when assembling equipment?"

In addition, equipment plans, performance lists, and detailed coordination by resident are organized in 99_Appendix_Examples of AI coordination plans and 99_Appendix_List of equipment by purpose.

Practical Build Appendix

Below is a searchable table mechanically reconstructed from CSV by usage. Do not omit material names, order, free frames, targets, and supplements. Blank fields, spelling fluctuations, and hypotheses in the CSV will be left as they are for review.

Difference with Current

Some of the configurations below were designed based on the old understanding that "shield abilities cannot be used with dual swords and fists."

Due to subsequent actual observations and information updates, the Evidence Boundary regarding shield performance has been updated as shown in "Current Boundary Regarding Shield Performance" at the beginning of this chapter.

However, a complete reorganization of the structure based on the old understanding has not been implemented at this time.

Please treat the applicable builds below as Historical Records preserving the design intent and practical recommendations made under the earlier Evidence State. They have not been redesigned or re-approved as Current recommendations.

Evidence State for the 25% labels: The statements "25% success rate" and "Messhilite inheritance: 25%" in this appendix include explanatory values / Practical Estimates based on the four-candidate equal-selection assumption used in the legacy CSV. They are not individually measured Current success rates, and they do not establish the actual candidate set, selection weights, or first-position probability.

Other than accessories for resident shoes

Weapon / One-handed sword / -

Broad division	weapon
Medium division	One-handed Sword
Subdivision	-
Base (appearance)	free frame

Broad division	Armor
Medium division	armor
Subdivision	-
Base (appearance)	free frame
Performance inheritance (confirmed frame)	general robe
arrangement (100% success rate)	Object X / Mealy Apple / Mealy Apple
Role/Operation Benefits	General Robe increases the base by 7% except for love attributes. If it's going to go 10% without raising the base, there's little point in hiring it.
Recommended number of people	7
Target audience	Scarlett / Ryker / Hina Fuuka / Elsje / Palmo / Julian
Supplement	The arrangement is done with a shirt. Livia (リヴィア) makes the Mealy Apple in the second reinforcement frame Object X. For the armor, a large turnip seems better than the legendary orc cloth, and increasing love resistance seems to be a higher priority. If you use Legendary Orc Cloth for your shield, you can differentiate it by its defensive performance, and you can supplement your resistance to status abnormalities with a diamond brooch.

Shoes for residents

① / Other than Dual Blades and Fist users

Classification: ①

Package name: Other than Dual Blades and Fist users

Base (appearance)	free frame
Performance inheritance (confirmed frame)	Step-in boots or heavy boots
Role/Operation Benefits	Increased blowout resistance. Movement speed does not seem to need to be increased because it is expensive and warps after a certain distance. Step-in boots increase resistance to being blown away, and the disadvantages are that residents do not step.
Recommended number of people	18
Supplement	Grants attribute resistance instead of movement speed. I thought about increasing the number of Mealy Apples by 50. In the case of heavy boots, you only need to reroll twice, but you can trade off the optional frame with a steel plate or super toy herb and golden scales. In the case of Step-in Boots, you can use the Mealy Apple*2 to make it difficult for 3 times or in the first step, and then turn it into Object X at the end.

reinforcement order

order	Reinforced material	order	Reinforced material

3	ancient fish feathers	8	Shade Stone
4	Double Steel	9	Rare Can
5	free frame	-	-

Arrangement (100% success rate): Yakiimo / Moving Branch / Dark Crystal

Weapon / Staff / Love

Broad division	weapon
Medium division	Staff
Subdivision	love
Base (appearance)	free frame
Performance inheritance (confirmed frame)	wise man's staff
Role/Operation Benefits	For basic magic of love only. Don't arrange charge magic in strange ways.

Supplement	Fire crystals for fire magic. Yakiimo for fastest charging speed. Branches that move to increase magic attack. Strengthen the Shade Stone for attribute penetration. Rare Cans are a must.
-------------------	--

Weapon / Staff / Light

Broad division	weapon
Medium division	Staff
Subdivision	light
Base (appearance)	wise man's staff
Performance inheritance (confirmed frame)	wise man's staff
Role/Operation Benefits	A versatile cane. Charge magic is the most practical. On the contrary, it may be difficult to control the fastest charge speed with Yakiimo. (Or put the yakiimo in and remove the magic ring.)
Supplement	The Sage's Staff uses light magic, so no crystals are needed. Yakiimo for fastest charging speed. Branches that move to increase magic attack. Strengthen the Shade Stone for attribute penetration. Rare Cans are a must.

Agricultural tools / hoe / -

Broad division	agricultural tools
Medium division	Hoe
Subdivision	-
Base (appearance)	free frame
Performance inheritance (confirmed frame)	Amanomura Cloud Sword
Role/Operation Benefits	No practicality. If it's a general's hoe with the basic performance, there might be room for consideration with the equipment bonus, but if it's inherited equipment, the characteristics will be dead.
Supplement	Arrangements are made with Claymore. Since you won't be using 5 slots for farming tools, you can use any one, but platinum farming tools seem safe. General's hoe is not recommended. I have no idea which is better, the Tenfold Steel Melody Bottle or the absorption attack of the Love Crystal. Large crystals are for non-attribute. Rare Cans are a must.

Weapon / Hat / -

Broad division	weapon
Medium division	hat
Subdivision	-
Base (appearance)	free frame
Performance inheritance (confirmed frame)	crown
Role/Operation Benefits	Crown ensures 100% stun resistance. Increases non-attribute resistance by 10% with 4 color cores. Obtain absorption attack mode with triphasic spores (aim for 100% with armor). Field status can be checked with a magnifying glass.
Supplement	The arrangement is done with a turnip hat. For free frame 2, a material that increases physical strength or a large turnip that increases love resistance would be good. From the looks of it, Ares' general hat or crown, and Alice's crown or gold hairpin.

reinforcement order

order	Reinforced material	order	Reinforced material
1	Mealy Apple	6	green core
2	free frame	7	blue core
3	Double Steel	8	Triphasic spores

order	Reinforced material	order	Reinforced material

5	yellow core	-	-

Arrangement (100% success rate): Object X / Mealy Apple / Mealy Apple

Armor / Armor / -

Broad division	Armor
Medium division	armor
Subdivision	-
Base (appearance)	free frame
Performance inheritance (confirmed frame)	general robe
Role/Operation Benefits	General Robe increases the base by 7% except for love attributes. Increases non-attribute resistance by 10% with 4 color cores. Covers stun, critical, and seal resistance with legendary orc cloth
Supplement	The arrangement is done with a shirt. It looks like Earthmite, so the vest of the Four Phantom Dragons seems to suit it.

reinforcement order

order	Reinforced material	order	Reinforced material
1	Mealy Apple	6	yellow core
2	Mealy Apple	7	green core
3	legendary orc cloth	8	blue core
4	Double Steel	9	Triphasic spores
5	red core	-	-

Arrangement (100% success rate): Object X / Mealy Apple / Mealy Apple

Evidence State: Configuration based on old shield understanding/Current not redesigned

Armor / Shield / -

Broad division	Armor
Medium division	shield
Subdivision	-
Base (appearance)	free frame

Performance inheritance (confirmed frame)	turtle shield
Role/Operation Benefits	Ensures 75% blowout resistance. Increases non-attribute resistance by 10% with 4 color cores. Use large turnip Tenfold Steel to increase love attribute. Free slot 10 is waiting for RF4's invisible stone, but there is no sign of it being implemented. It might be a good idea to make the arrangement frame golden scales.
Supplement	Arrangements are made using small shields. Be careful as the shield effect will be meaningless with Dual Blades and fists. Maybe the big turnip's love attribute resistance is better with something other than a shield? (For example, make the free frame 2 of the head equipment a large turnip) If you use dual swords or fists, the effect of the shield will not be used, so it might be better to supplement the Mealy Apple separately? It looks like Earthmite, so a rune shield would probably be a good fit.

reinforcement order

Arrangement (100% success rate): Object X / Mealy Apple / Mealy Apple

shoes for main character

① / *Regular/combat general purpose*

Classification: ①

Package name: Regular/combat general purpose

Base (appearance)	gold boots
Performance inheritance (confirmed frame)	heavy boots
Role/Operation Benefits	Extends step invincibility + raises blowout, CRIT, and stun resistance. It suppresses excessive speed and balances farming and combat.
Supplement	The golden scales and dragon phantom stones were used to increase the resistance of steel plates and broken wooden boxes in the strongest equipment examples to increase defense power, but this time they were changed to defense power because there was a margin for using talismans.

reinforcement order

order	Reinforced material	order	Reinforced material
1	red core	6	Double Steel
2	yellow core	7	Dragon phantom stone (optional frame)
3	green core	8	Double Steel
4	blue core	9	free frame
5	Golden scales (optional frame)	-	-

Arrangement (100% success rate): Strider Boots / Legendary Orc Cloth

② / *Extremely fast lap*

Classification: ②

Package name: Explosive speed lap

Base (appearance)	sneaking boots
Performance inheritance (confirmed frame)	sneaking boots
Role/Operation Benefits	Movement speed +75% (50+25). A specialized orbiting machine that maximizes the efficiency of Rigverse labyrinths and material recovery.
Supplement	The golden scales and dragon phantom stones were used to increase the resistance of steel plates and broken wooden boxes in the strongest equipment examples to increase defense power, but this time they were changed to defense power because there was a margin for using talismans.

reinforcement order

Stan↑	50%	2	Randolph, Darroch	8.33%	4.17%	4.17%
-	-	1	Palmo *Attack and magic attack do not increase	4.17%	-	-

In the first place, intelligence ↑ seems to be related to the equipment's parameters, not the wearer's parameters, so the reroll has little meaning. If you're going to do it, it's more reasonable to narrow it down to two options: increasing physical attack and increasing magic attack.

Effect type	Strengthening amount	Applicable number of people	Applicable resident name	Lottery probability (n/24)	Physical attack increase probability	Magic attack up probability
Even if the favorability rating of all residents is set to 10, they may not come, so it is painful that they do not come out at a pure 50%.						
Avoid Together Forging alongside Messhilité inheritance whenever possible.						

Required number of rare items

1 / Rare Can

No: 1

Name: Rare Can

Use: Rare drop rate increase enhancement

How to obtain *Rare drop requires 4 Rare Cans (4 residents): Fishing (Whispering Forest 1.8%)

Required number of protagonists: 15

Required number of residents: 25

Total number required: 40

Remaining number Ares data: 40

Remaining number Alice data: 40

2 / Rune Crystal

No: 2

Name: Rune Crystal

Usage: Wand of the Wise / Crown / Proof of the Hero / Proof of the Sage / Diamond Brooch Material

How to obtain *Rare drop requires 4 Rare Cans (4 residents): Hit a Rune Crystal with a hammer to have a chance of appearing.

Required number of protagonists: 16

Required number of residents: 49

Total number required: 65

Remaining number Ares data: 65

Remaining number Alice data: 65

3 / Rune Sphere Shard

No: 3

Name: Rune Sphere Shard

Uses: Amanomura Kumo no Sword / Philosopher's Staff / General Robe / Annette's Necklace Material

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Approximately 12% rare drops (Gundoage, Yami Yori Ishimono)

Required number of protagonists: 17

Required number of residents: 32

Total number required: 49

Number of possessions Ares data: 11

Remaining number Ares data: 38

Remaining number Alice data: 49

Note: Excludes agricultural tools (6 pieces)

4 / General's Orb

No: 4

Name: General's Orb

Application: General Robe / Crown / Rocket Wing Material

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Rare drops approx. 12% (Gandouage)

Required number of protagonists: 3

Required number of inhabitants: 7

Total number required: 10

Number of possessions Ares data: 5

Number of possessions Alice data: 1

Remaining number Ares data: 5

Remaining number Alice data: 9

5 / Glitta Augite

No: 5

Name: Glitta Augite

Use: Increase range

How to obtain *Rare drops are assumed to include 4 Rare Cans (4 residents): Obtained by cutting down a glitter tree.

Required number of protagonists: 28

Required number of residents: 42

Total number required: 70

Remaining number Ares data: 70

Remaining number Alice data: 70

Note: Excludes agricultural tools (6 pieces)

6 / Messhilite Ore

No: 6

Name: Messhilite Ore

Usage: Messhilite Inheritance, diamond brooch material

How to obtain * Rare drops assume 4 Rare Cans (4 residents): Mining gemstone deposits (sapphires have a high probability)

Required number of protagonists: 7

Required number of inhabitants: 46

Total required: 53

Number of possessions Ares data: 18

Remaining number Ares data: 35

Remaining number Alice data: 53

Note: Excludes agricultural tools (6 pieces)

7 / Shade Stone

No: 7

Name: Shade Stone

Usage: Attribute penetration

How to obtain *Rare drop requires 4 Rare Cans (for 4 residents): Mining ore deposits on 2nd floor of Darkness of Eitor and 17th floor of Rigverse Labyrinth.

Required number of protagonists: 8

Required number of residents: 25

Total number required: 33

Remaining number Ares data: 33

Remaining number Alice data: 33

8 / Mealy Apple

No: 8

Name: Mealy Apple

Usage: Strengthening attribute resistance

How to obtain *Rare drop requires 4 Rare Cans (4 residents): Killer Griffon seed circle or drop (Meteor Day only)

Required number of protagonists: 8

Required number of residents: 213

Total number required: 221

Number of possessions Ares data: 40

Remaining number Ares data: 181

Remaining number Alice data: 221

Note: If you compromise the resistance of Dual Blades and fists from 99% to 97%, it will be reduced by 14.

Double Steel

No: 9

Double Steel

Usage: Equipment reinforcement 8x

How to obtain * Rare drops assume 4 Rare Cans (4 residents): Less than 5% drop from Tyrolia's attack

Required number of protagonists: 22

Required number of residents: 68

Total number required: 90

Remaining number Ares data: 90

Remaining Alice data: 90

Notes: Excludes agricultural tools (6 pieces), Mealy Apples

10 / Double Steel

No: 10

Name: Double Steel

Use: 2x equipment enhancement

How to obtain * Rare drops assume 4 Rare Cans (4 residents): Less than 95% drop from Tyrolia's attack

Required number of protagonists: 17

Required number of residents: 33

Total number required: 50

Remaining number Ares data: 50

Remaining number Alice data: 50

Notes: Excludes agricultural tools (6 pieces) If you compromise the resistance of Dual Blades and fists from 99% to 97%, it will be reduced by 7 pieces.

11 / moving branches

No: 11

Name: Moving Branch

Usage: Equipment reinforcement magic attack, sage's staff / sage's proof material

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Heinz Trade Goods / Rare drops approx. 12% (Dead Tree Modification)

Required number of protagonists: 31

Required number of residents: 12

Total number required: 43

Remaining number Ares data: 43

Remaining number Alice data: 43

12 / Ancient fish fins

No: 12

Name: Ancient fish fin

Uses: Equipment enhancement, Sage's staff / Rocket wing materials

How to obtain * Rare drop assumes 4 Rare Cans (4 residents): Heinz trade goods / Fishing (rigverse low probability)

Required number of protagonists: 9

Required number of residents: 8

Total number required: 17

Number of possessions Ares data: 50

Remaining number Ares data: -33

Remaining number Alice data: 17

13 / Shining scales

No: 13

Name: Glowing scales

Use: Equipment reinforcement strength

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Heinz trade goods / Rare drops approx. 12% (Red Dragon)

Required number of protagonists: 0

Required number of residents: 41

Total required: 41

Remaining number Ares data: 41

Remaining number Alice data: 41

Notes: Estimate more

14 / golden scales

No: 14

Name: Golden scales

Use: Equipment reinforcement physical strength

How to obtain *Rare drop requires 4 Rare Cans (4 residents): Wanted Perfect Complete Reward (available every day)

Required number of protagonists: 3

Required number of residents: 33

Total required: 36

Remaining number Ares data: 36

Remaining number Alice data: 36

15 / sharp fangs

No: 15

Name: sharp fang

Application: Step-in boot material

How to obtain * Rare drops assume 4 Rare Cans (4 residents): Heinz Trade Goods / Rare Drop approx. 12% (Lyraps) seed Sky Castle 2F

Required number of protagonists: 0

Required number of residents: 25

Total number required: 25

Remaining number Ares data: 25

Remaining number Alice data: 25

16 / skull crystal

No: 16

Name: Skull Crystal

Usage: Ghost shoes material

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Heinz trade goods / Rare drops approx. 12% (Skull Dragon)

Required number of protagonists: 1

Required number of residents: 0

Required number Total: 1

Remaining number Ares data: 1

Remaining Alice data: 1

17 / Warrior's Mark

No: 17

Name: Warrior's Mark

Application: Step-in boots / Champion belt material

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Heinz Trade Goods / Rare drops approx. 12% (Dead Tree Modification)

Required number of protagonists: 1

Required number of inhabitants: 45

Total number required: 46

Number of possessions Ares data: 30

Remaining number Ares data: 16

Remaining number Alice data: 46

18 / Chief's proof

41 / small crystal

No: 41

Name: small crystal

Usage: Material

How to obtain *Rare drops require the introduction of 4 Rare Cans (4 residents): Crystal Shop / Heinz Trade Goods

Total number required: 0

42 / big crystal

No: 42

Name: big crystal

Use: Cancellation of equipment enhancement attributes

How to obtain *Rare drops require the introduction of 4 Rare Cans (4 residents): Crystal Shop / Heinz Trade Goods

Total number required: 0

43 / Triphasic spores

No: 43

Name: triphasic spore

Uses: equipment strengthening absorption resistance up, Tetsuya ring material

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Drop unknown but medium probability (Desfungus,)

Required number of protagonists: 3

Required number of residents: 0

Total required: 3

44 / Beautiful insect skin

No: 44

Name: Beautiful insect skin

Application: Heavy boot material

How to obtain *Rare drops assume 4 Rare Cans (4 residents): Drop unknown but around 10% (Queen Bee, Hornet), Production (Giant Bug)

Required number of protagonists: 1

Required number of residents: 0

Required number Total: 1

45 / Big turnip

No: 45

Name: Big turnip

Usage: Equipment enhancement love resistance increase

How to obtain *Rare drop assumes 4 Rare Cans (4 residents): Farming becomes huge

46 / four leaf clover

No: 46

Name: Four-leaf clover

Usage: Increase common drop rate

How to obtain *Rare drop requires 4 Rare Cans (4 residents): Flower shop/Agriculture (1.5x in spring and autumn, 0.5x in summer)

47 / Large four-leaf clover

No: 47

Name: Large four-leaf clover

Usage: Increase common drop rate

How to obtain *Rare drop assumes 4 Rare Cans (4 residents): Farming becomes huge (1.5 times in spring and autumn, 0.5 times in summer)

Reference Catalog

Resident initial equipment, armor icons, and appearance confirmation materials held by the old 10 will not be removed from Canonical candidates. In this v0.1, searchable resident and equipment tables are recorded from CSV, and the image catalog will be ported in the next version's render process.

Specialized weapons/initial equipment/shield restrictions/attributes by resident

1 / Priscilla

No: 1

Category: Love candidate

Name: Priscilla

Favorite Weapon: Staff

Initial equipment: Amethyst rod

Cane Attribute: Earth

Appearance of the shield that looks good: Needs consideration

Body size (hypothesis): Small

Behavioral AI performance (hypothesis): Medium

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 25%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Rear guard of cane users. AI that can easily be used for recovery and assistance.

2 / Lucy

No: 2

Category: Love candidate

Name: Lucy

Favorite Weapon: One-handed sword

Initial equipment: Steel sword

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Magic warrior?: Needs consideration

Fire resistance: 25%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): One-handed sword. AI that actively moves forward and aims for combos.

3 / Scarlett

No: 3

Category: Love candidate

Name: Scarlett

Favorite Weapon: Dual Blades

Initial equipment: Steel Edge

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Notes: Also good with bare hands.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 25

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): An elite wielder of dual swords. AI that takes advantage of high evasion and number of moves.

4 / Fuuka

No: 4

Category: Love candidate

Name: Fuuka

Favorite Weapon: Fist

Initial equipment: Gauntlets

Cane attribute: -

Appearance of the shield that looks good: -

Body size (hypothesis): Small

Behavioral AI performance (hypothesis): High

Notes: Shield cannot be equipped.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 25%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Fists and shields are not allowed. The AI is aggressive and prefers infighting.

5 / Beatrice

No: 5

Category: Love candidate

Name: Beatrice

Favorite Weapon: Hammer

Initial equipment: Warhammer

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): Low

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 25%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Hammer. Although the blow is heavy, the AI has a lot of room for action.

Ludmila

No: 6

Category: Love candidate

Name: Ludmila

Favorite Weapon: Staff

Initial equipment: Aquamarine rod

Cane Attribute: Water

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): Medium

Notes: Bubble staff seems to be suitable for charge magic.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 50%

Love resistance: 0%

Characteristics/Role (Hypothesis): Staff/Water/Darkness. AI that keeps its distance and uses magic frequently.

7 / Martin

No: 7

Category: Love candidate

Name: Martin

Favorite Weapon: Hammer

Initial equipment: Battle hammer

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): Medium

Magic warrior?: Needs consideration

Fire resistance: 25%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Hammer. A solid avant-garde AI with a craftsmanship and ruggedness.

8 / Cecil

No: 8

Category: Love candidate

Name: Cecil

Favorite Weapon: Staff

Initial equipment: Aquamarine rod

Cane Attribute: Water

Appearance of the shield that looks good: Needs consideration

Body size (hypothesis): Small

Behavioral AI performance (hypothesis): Medium

Notes: For charge magic, 1 and 2 are water crystal, and 3 is ammonite.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 25%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Cane/Water. A reconnaissance-type AI that plays with tricky movements.

9 / Murakumo

No: 9

Category: Love candidate

Name: Murakumo

Favorite Weapon: Ax

Initial equipment: Battle ax

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Body size (hypothesis): Large

Behavioral AI performance (hypothesis): Medium

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 25%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Ono. It often uses ranged attacks that take advantage of its large body.

10 / Ryker

No: 10

Category: Love candidate

Name: Ryker

Favorite Weapon: Dual Blades

Initial equipment: Steel Edge

Cane attribute: -

Appearance of the shield that looks good: -

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Notes: Shield cannot be equipped.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 25%

Love resistance: 0%

Characteristics/Role (hypothesis): Cannot use dual swords or shields. An image of getting serious (AI enhanced) at night.

11 / Reinhard

No: 11

Category: Love candidate

Name: Reinhard

Favorite Weapon: Two-handed sword

Initial equipment: Two-handed sword modified

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Body size (hypothesis): Large

Behavioral AI performance (hypothesis): High

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 25%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Two-handed sword. An AI that behaves like a knight, protecting his friends.

12 / Lucas

No: 12

Category: Love candidate

Name: Lucas

Favorite Weapon: Spear

Initial equipment: Lance Kai

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Body size (hypothesis): Large

Behavioral AI performance (hypothesis): High

Note: It looks like a hard protector would be fine instead of a general robe.

Magic warrior?: Target

Fire resistance: 10%

Water resistance: 10%

Earth resistance: 10%

Wind resistance: 10%

Light resistance: 25%

Dark resistance: 10%

Love resistance: 0%

Features/Role (hypothesis): Spear. Accurate AI that takes advantage of reach and rarely appears.

13 / Elsjé

No: 13

Classification: Town Resident

Name: Elsjé

Favorite Weapon: Fist

Initial equipment: gloves

Cane attribute: -

Appearance of the shield that looks good: -

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): Low

Notes: Shield cannot be equipped.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 25%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Fists and shields are not allowed. AI that doesn't have much motivation, but it hurts when you hit it.

14 / Palmo

No: 14

Classification: Town Resident

Name: Palmo

Favorite Weapon: Fist

Initial equipment: gloves

Cane attribute: -

Appearance of the shield that looks good: -

Body size (hypothesis): Large

Behavioral AI performance (hypothesis): Medium

Notes: Shield cannot be equipped.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Fists and shields are not allowed. Dynamic and unpredictable movement.

15 / Heinz

No: 15

Classification: Town Resident

Name: Heinz

Favorite Weapon: Ax

Initial equipment: pole ax

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): Low

Note: It looks like a hard protector would be fine instead of a general robe.

Magic warrior?: Needs consideration

Fire resistance: 10%

Water resistance: 10%

Earth resistance: 10%

Wind resistance: 10%

Light resistance: 10%

Dark resistance: 10%

Love resistance: 0%

Characteristics/Role (hypothesis): Ono. AI that has a lot of gaps, like a gag.

16 / Randolph

No: 16

Classification: Town Resident

Name: Randolph

Favorite Weapon: Two-handed sword

Initial equipment: Two-handed sword

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Two-handed sword. Skilled AI that gives you the experience of a former adventurer.

17 / Yuki

No: 17

Classification: Town Resident

Name: Yuki

Favorite Weapon: None

Initial equipment: None

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): -

Behavioral AI performance (hypothesis): -

Notes: Cannot join. Ares Data has equipped it with a short sword.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (Hypothesis): (Assuming not being able to join) Moves too cautiously.

18 / Simone

No: 18

Classification: Town Resident

Name: Simone

Favorite Weapon: Spear

Initial equipment: Spear that doesn't seem to hurt.

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): Medium

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Spear. Doctor AI that accurately attacks weaknesses.

19 / Misasagi

No: 19

Classification: Town Resident

Name: Misasagi

Favorite Weapon: Two-handed sword

Initial equipment: Two-handed sword

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Magic warrior?: Needs consideration

Fire resistance: 25%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Two-handed sword. An AI that dances splendidly with Japanese-style sword techniques.

20 / Terry

No: 20

Classification: Town Resident

Name: Terry

Favorite Weapon: One-handed sword

Initial equipment: Cutlass

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): One-handed sword. A detective AI that deals with opponents with efficient movements.

21 / Livia

No: 21

Classification: Town Resident

Name: Livia

Favorite Weapon: None

Initial equipment: None

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): -

Behavioral AI performance (hypothesis): -

Notes: Cannot join. Ares Data has equipped it with a short sword.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): (assumed not to be able to join) Contrary to its appearance, it is an advanced AI.

22 / Radea

No: 22

Classification: Town Resident

Name: Radea

Favorite Weapons: Axe, Hammer, Twin Swords, Great Sword, Spear

Initial equipment: Great Ax

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Notes: Uses many weapons. Looks like a hard protector would be fine.

Magic warrior?: Needs consideration

Fire resistance: 15%

Water resistance: 15%

Earth resistance: 15%

Wind resistance: 15%

Light resistance: 15%

Dark resistance: 15%

Love resistance: -25%

Characteristics/Role (hypothesis): Versatile. Overwhelming reaction speed with dragon blood.

23 / Darroch

No: 23

Classification: Town Resident

Name: Darroch

Favorite Weapon: Hammer

Initial equipment: Warhammer

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Body size (hypothesis): Large

Behavioral AI performance (hypothesis): Medium

Magic warrior?: Needs consideration

Fire resistance: 25%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Hammer. AI that delivers a heavy blow.

24 / Julian

No: 24

Classification: Town Resident

Name: Julian

Favorite Weapon: Fist

Initial equipment: Leather gloves

Cane attribute: -

Appearance of the shield that looks good: -

Body size (hypothesis): Small

Behavioral AI performance (hypothesis): Medium

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Features/Role (hypothesis): Fist. AI that bravely attacks even though it is a child.

25 / Hina

No: 25

Classification: Town Resident

Name: Hina

Favorite Weapon: Dual Blades

Initial equipment: Double magic hand

Cane attribute: -

Appearance of the shield that looks good: -

Body size (hypothesis): Small

Behavioral AI performance (hypothesis): Low

Notes: Shield cannot be equipped.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Cannot use dual swords or shields. AI tries its best, but is a little disappointed.

26 / son

No: 26

Classification: Children

Name: son

Favorite Weapon: Dual Blades

Initial equipment: short dagger?

Cane attribute: -

Appearance of the shield that looks good: -

Physique (hypothesis): Small?

Behavioral AI performance (hypothesis): unknown

Note: If you have Dual Blades, you cannot equip a shield. In the case of twins, one-handed sword.

Magic warrior?: Excluded since it is assumed that she will not have children (the blank space may fit)

Fire resistance: unknown

Water resistance: unknown

Earth resistance: unknown

Wind resistance: unknown

Light resistance: unknown

Dark resistance: unknown

Love resistance: unknown

Characteristics/Role (hypothesis): Unknown

27 / daughter

No: 27

Classification: Children

Name: Daughter

Favorite Weapon: Staff

Initial equipment: unknown

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Small?

Behavioral AI performance (hypothesis): unknown

Note: A cane for twins.

Magic warrior?: Excluded since it is assumed that she will not have children (the blank space may fit)

Fire resistance: unknown

Water resistance: unknown

Earth resistance: unknown

Wind resistance: unknown

Light resistance: unknown

Dark resistance: unknown

Love resistance: unknown

Characteristics/Role (hypothesis): Unknown

28 / Doug

No: 28

Classification: Guest

Name: Doug

Favorite Weapon: One-handed sword

Initial equipment: Defender

Cane attribute: -

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Magic warrior?: Needs consideration

Fire resistance: 25%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 0%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): One-handed sword. A perfected AI that looks like a veteran hero.

29 / Margaret

No: 29

Classification: Guest

Name: Margaret

Favorite Weapon: Staff

Initial equipment: Emerald rod

Cane Attribute: Wind

Appearance of the shield that looks good: Needs consideration

Physique (hypothesis): Medium

Behavioral AI performance (hypothesis): High

Notes: For charge magic, it seems better to have 1, 2, 3 of Love Love Rod than Wind.

Magic warrior?: Needs consideration

Fire resistance: 0%

Water resistance: 0%

Earth resistance: 0%

Wind resistance: 25%

Light resistance: 0%

Dark resistance: 0%

Love resistance: 0%

Characteristics/Role (hypothesis): Cane/Wind. An AI that manipulates the battlefield as if it were playing music.

AI coordination candidate generation record

The output of ChatGPT/Copilot/Gemini is a source for observing candidate worldview interpretations. This is not the final draft as it includes errors in equipment names, proposals for shields for residents who cannot shield, confusion of parts, etc. Maintain the Hallucination check column in Human HQ.

User hallucination check: I had the missing items made up for, but there are only equipment that doesn't have a romantic frame.

gemini

Priscilla / Shield

Resident name: Priscilla

Part: Shield

Romantic frame (emphasis on appearance): Magic Shield

Practical frame (low cost/initial): Small shield

Reason for selection/point of taste: The gentle colors match her with a decorative shield that is both magical and cute.

Priscilla / Others

Resident name: Priscilla

Part: Other

Romantic frame (emphasis on appearance): Rune vest/fairy boots/heart pendant

Practical frame (low cost/initial): Shirt/Leather boots/Amulets

Reason for selection/points of taste: We prioritized the cleanliness of a neat student/apprentice and the image of a maiden in love.

Scarlett / Shield

Resident name: Scarlett

Part: Shield

Romantic frame (emphasis on appearance): (Cannot be equipped: Dual Blades)

Practical frame (low cost/initial): (Cannot be equipped: Dual Blades)

Reason for selection/point of sense: Shield is excluded because he uses dual swords.

Scarlett / other

Resident name: Scarlett

Part: Other

Romantic frame (emphasis on appearance): Vest of the Four Phantom Dragons/Rocket Wing/Sun Pendant

Practical frame (low cost/initial): Protector/Sneaking Boots/Badge of Courage

Reason for selection/sensory points: The design of the sun and wings expresses a strong sense of justice and the mobility of a police officer.

Lucy / Shield

Resident name: Lucy

Part: Shield

Romantic frame (emphasis on appearance): Blue Shield

Practical frame (low cost/initial): Round shield

Reason for selection/point of taste: If she likes fishing and exercise, a shield that reminds her of the blue sea or an active round shield is perfect.

Lucy / Others

Resident name: Lucy

Part: Other

Romantic frame (emphasis on appearance): Wind cloak/Strider boots/Dolphin brooch

Practical frame (low cost/initial): Vest/sneakers/hardworking gloves

Reason for selection/sensory points: It reflected the image of running through the wind and her hobby (fishing).

Fuuka / Shield

Resident name: Fuuka

Part: Shield

Romantic frame (emphasis on appearance): (Cannot be equipped: fist)

Practical frame (low cost/initial): (Cannot be equipped: fist)

Reason for selection/Points of sense: Shield is excluded because he uses fists.

Fuuka / Others

Resident name: Fuuka

Part: Other

Romantic frame (emphasis on appearance): Royal garter/fairy boots/emerald ring

Practical frame (low cost/initial): Sarashi/Piyo Piyo Sandals/Lucky Ring

Reason for selection/point of taste: I accented it with a wild charm and my favorite "sparkling jewels".

Ludmila / Shield

Ludmila

Part: Shield

Romantic frame (emphasis on appearance): Magical Shield

Practical frame (low cost/initial): Chaos Shield

Reason for selection/sensory points: The bewitching nature of a succubus and the image of darkness and magic specialization are layered on the shield pattern.

Ludmila / Others

Ludmila

Part: Other

Romantic frame (emphasis on appearance): royal garter/ghost boots/witch earrings

Practical frame (low cost/initial): Wind cloak/Leather boots/Poison ring

Reason for selection/point of taste: A combination of a captivating costume name and accessories that symbolize her attributes.

Beatrice/Shield

Resident name: Beatrice

Part: Shield

Romantic frame (emphasis on appearance): Prism shield

Practical frame (low cost/initial): Platinum Shield

Reason for selection/points of taste: We chose the beautiful glittering decorations and noble metallic feel that would not compromise the princess's elegance.

Beatrice / Others

Resident name: Beatrice

Part: Other

Romantic frame (emphasis on appearance): Royal Garter/Fairy Boots/Holy Amulet

Practical frame (low cost/initial): Elf cloak/silver boots/sapphire ring

Reason for selection/sensory points: It has a sacred composition based on white and blue, befitting the attribute of a ``daughter of the royal family."

Martin / shield

Resident name: Martin

Part: Shield

Romantic frame (emphasis on appearance): Heavy shield

Practical frame (low cost/initial): Iron Shield

Reason for selection/point of taste: The ruggedness of a blacksmith and the heavy texture of the metal harmonize with the hammer.

Martin / Others

Resident name: Martin

Part: Other

Romantic frame (emphasis on appearance): Powered protector/Tetsugeta shoes/Power gloves

Practical frame (low cost/initial): Hat (initial)/heavy boots/cheap bracelet

Reason for selection/sensible points: The structure makes use of the symbol of "power" that makes you feel the spirit of craftsmanship, and the initial equipment listed in the supplement.

Cecil / Shield

Resident name: Cecil

Part: Shield

Romantic frame (emphasis on appearance): Yellow Shield

Practical frame (low cost/initial): cheap shield

Reason for selection/sensory points: The inquisitive image of an aspiring detective is expressed in bright yellow, and the expressive frame expresses a sense of elongation.

Cecil / Others

Resident name: Cecil

Part: Other

Romantic frame (emphasis on appearance): General robe/sneaking boots/star pendant

Practical Frame (Low Cost/Initial): Shirt/Secret Shoes/Earrings of Concentration

Reason for selection/sensory points: A set of star pendants that symbolize stealth action (sneaking) and inspiration.

Murakumo / Shield

Resident name: Murakumo

Part: Shield

Romantic frame (emphasis on appearance): Turtle shield

Practical frame (low cost/initial): Bone Shield

Reason for selection/point of taste: He is an innkeeper and a warrior, so a sturdy turtle shell and a wild bone shield suit him well.

Murakumo / Others

Resident name: Murakumo

Part: Other

Romantic frame (emphasis on appearance): General robe/heavy boots/champion belt

Practical frame (low cost/initial): Sarashi/Bone boots/Leather belt

Reason for selection/point of taste: We created the silhouette of a dynamic Japanese warrior, using our favorite belt as the main character.

Ryker / Shield

Resident name: Ryker

Part: Shield

Romantic frame (emphasis on appearance): (Cannot be equipped: Dual Blades)

Practical frame (low cost/initial): (Cannot be equipped: Dual Blades)

Reason for selection/point of sense: Shield is excluded because he uses dual swords.

Ryker / Others

Resident name: Ryker

Part: Other

Romantic frame (emphasis on appearance): Vest of the Four Phantom Dragons/Ghost Boots/Ring of Darkness

Practical frame (low cost/initial): Mercenary cloak/sneaking boots/paralyze ring

Reason for selection/sensory points: We focused on the Chuunibyou-like coolness and dark attributes typical of a person who believes in the "power of seals."

Lucas / Shield

Resident name: Lucas

Part: Shield

Romantic frame (emphasis on appearance): Seven-colored shield

Practical frame (low cost/initial): Elemental Shield

Reason for selection/Point of sense: As a true god, he needs a brilliance that includes all the principles (attributes) of the world.

Lucas / Others

Resident name: Lucas

Part: Other

Romantic frame (emphasis on appearance): General Robe/Rocket Wing/Talisman

Practical frame (low cost/initial): Wind cloak/Fairy boots/Magic stone earrings

Reason for selection/sensory points: Assisted in the miracles (magic) of God, creating a divinity as a saint far removed from the world.

Reinhard / Shield

Resident name: Reinhard

Part: Shield

Romantic frame (emphasis on appearance): Night Shield

Practical frame (low cost/initial): Iron Shield (initial)

Reason for selection/point of taste: Symbol of a knight pledging loyalty. I imagined the promotion from the initial equipment iron shield to a knight's shield.

Reinhard / Others

Resident name: Reinhard

Part: Other

Romantic frame (emphasis on appearance): Powered protector/night boots/platinum ring

Practical frame (low cost/initial): Scale vest/silver boots/talisman

Reason for selection/sensible point: Emphasis is placed on the balance between armor and shield, strengthening the ``protection" of those who follow noble chivalry.

Radea / Shield

Resident name: Radea

Part: Shield

Romantic frame (emphasis on appearance): Chaos Shield

Practical frame (low cost/initial): Cars Shield

Reason for selection/point of taste: We selected an ominous icon that conveys the power of the ancient dragon of darkness and an irresistible destiny.

Radea / Others

Resident name: Radea

Part: Other

Romantic frame (emphasis on appearance): Dragon cloak/Ghost boots/Ancient pendant

Practical frame (low cost/initial): Elf cloak/bone boots/dark ring

Reason for selection/sensory points: Based on the supplementary example, we packed the image of dragon genealogy and darkness into a romantic frame.

Livia / Shield

Resident name: Livia

Part: Shield

Romantic frame (emphasis on appearance): Rune Shield

Practical frame (low cost/initial): Magic Shield

Reason for selection/points of taste: We chose a mysterious shield that has the dignity of a police chief and the true power of the Ancient God Dragon.

User hallucination check: Unable to join

Livia / Others

Resident name: Livia

Part: Other

Romantic frame (emphasis on appearance): Dragon Cloak/Fairy Boots/Dark Ring

Practical frame (low cost/initial): Mercenary cloak/Silver boots/Amethyst ring

Reason for selection/sensory points: As mentioned, the design combines a dragon and darkness that hint at her true identity.

Simone / Shield

Resident name: Simone

Part: Shield

Romantic frame (emphasis on appearance): Elemental Shield

Practical frame (low cost/initial): cheap shield

Reason for selection/Point of sense: As a doctor, it represents the depth of knowledge that is familiar with all abnormal conditions (attributes).

Others

Part: Other

Romantic frame (emphasis on appearance): General Robe/Silver Boots/Talisman

Practical Frame (Low Cost/Initial): Vest/Leather Boots/Earrings of Concentration

Reason for selection/points of taste: A robe reminiscent of a white coat and a holy symbol (talisman) to protect the townspeople.

Terry / Shield

Resident name: Terry

Part: Shield

Romantic frame (emphasis on appearance): Magic Shield

Practical frame (low cost/initial): Round shield

Reason for selection/point of taste: Detectives with sharp observational eyes are familiar with decorative shields and simple shields that seem to have a gimmick.

Others

Part: Other

Romantic frame (emphasis on appearance): Mercenary's cloak/sneaking boots/strange pendant

Practical frame (low cost/initial): Vest/Sneaking boots/Star pendant

Reason for selection/points of taste: The boots are perfect for night investigations, and the accessories emphasize his mysterious aura.

Randolph / Shield

Resident name: Randolph

Part: Shield

Romantic frame (emphasis on appearance): General Shield

Practical frame (low cost/initial): Great Shield

Reason for selection/point of taste: To show off the personality of a former great adventurer, I chose a dignified shield wielded by generals and heavy warriors.

Others

Part: Other

Romantic frame (emphasis on appearance): Rune Vest/Night Boots/Badge of Courage

Practical frame (low cost/initial): Hat/Heavy boots/Sage's proof

Reason for selection/point of taste: It is a proof of skillful equipment and courage that shows that he is a ``former hero."

Yuki / Shield

Resident name: Yuki

Part: Shield

Romantic frame (emphasis on appearance): Stuffed monkey

Practical frame (low cost/initial): Small shield

Reason for selection/point of taste: Her calmness, which has nothing to do with battle, is expressed with a cute icon.

User hallucination check: Unable to join

Others

Part: Other

Romantic frame (emphasis on appearance): Fluffy shirt/Piyo Piyo sandals/Engagement ring

Practical frame (low cost/initial): Shirt/Leather boots/Amulets

Reason for selection/point of taste: I chose the warm clothes typical of my grandmother and my deep love for Randolph (the engagement ring).

Heinz / Shield

Resident name: Heinz

Part: Shield

Romantic frame (emphasis on appearance): Bone Shield

Practical frame (low cost/initial): Small shield

Reason for selection/point of taste: I chose the bone shield because of his jokes (which touch my bones) and his preference for skull crystals.

Others

Part: Other

Romantic frame (emphasis on appearance): Kinkira shirt/gold boots/diamond ring

Practical frame (low cost/initial): Vest/Leather boots/Critical ring

Reason for selection/point of taste: A combination of the brilliance of a wealthy hobbyist and critical (pun intended).

Darroch / Shield

Resident name: Darroch

Part: Shield

Romantic frame (emphasis on appearance): Heavy shield

Practical frame (low cost/initial): Iron Shield

Reason for selection/point of taste: A heavy metal shield that is practical and without any decoration suits my father, who is a stubborn blacksmith.

Others

Part: Other

Romantic frame (emphasis on appearance): Powered protector/Tetsugeta shoes/Platinum bangle

Practical frame (low cost/initial): Hat/Heavy boots/Silver bracelet

Reason for selection/point of taste: This bracelet symbolizes heavy equipment that can withstand lava and heat, as well as the skills of a craftsman.

Palmo / Shield

Resident name: Palmo

Part: Shield

Romantic frame (emphasis on appearance): (Cannot be equipped: fist)

Practical frame (low cost/initial): (Cannot be equipped: fist)

Reason for selection/Points of sense: Shield is excluded because he uses fists.

Others

Part: Other

Romantic frame (emphasis on appearance): General robe/feather boots/star pendant

Practical frame (low cost/initial): Kinkyra's shirt/Silver boots/Emerald ring

Reason for selection/point of taste: I compared his creativity as an artist and his unconventional inspiration to stars.

Julian / shield

Resident name: Julian

Part: Shield

Romantic frame (emphasis on appearance): (Cannot be equipped: fist)

Practical frame (low cost/initial): (Cannot be equipped: fist)

Reason for selection/Points of sense: Shield is excluded because he uses fists.

Others

Part: Other

Romantic frame (emphasis on appearance): protector/spike shoes/sun pendant

Practical frame (low cost/initial): Sarashi/Leather boots/Hardworker's work gloves

Reason for selection/points of taste: A boy full of energy. Emphasis on the brightness of the sun, aiming to become a future hero.

Hina / Shield

Resident name: Hina

Part: Shield

Romantic frame (emphasis on appearance): (Cannot be equipped: Dual Blades)

Practical frame (low cost/initial): (Cannot be equipped: Dual Blades)

Reason for selection/point of sense: Shield is excluded because he uses dual swords.

Others

Part: Other

Romantic frame (emphasis on appearance): Elf cloak/Piyo Piyo sandals/Dolphin brooch

Practical frame (low cost/initial): Shirt/Piyo Piyo Sandals/Amulet

Reason for selection/point of taste: The cuteness of the young girl and the matching dolphin decoration with her mother (Misasagi).

Misasagi

Resident name: Misasagi

Part: Shield

Romantic frame (emphasis on appearance): Round shield

Practical frame (low cost/initial): cheap shield

Reason for selection/point of taste: We chose a simple round shield that blends well with Japanese clothing. Prioritizing traditional beauty.

Others

Part: Other

Romantic frame (emphasis on appearance): Sarashi/Tetsugeta Shoes/Talisman

Practical frame (low cost/initial): Vest/Leather boots/Amulet

Reason for selection/points of taste: This is a set of bills that embodies the prayers of Sarashi, a dignified landlady, and a mother protecting her daughter.

Elsje / Shield

Resident name: Elsje

Part: Shield

Romantic frame (emphasis on appearance): (Cannot be equipped: fist)

Practical frame (low cost/initial): (Cannot be equipped: fist)

Reason for selection/Points of sense: Shield is excluded because he uses fists.

Others

Part: Other

Romantic frame (emphasis on appearance): Fluffy shirt/Piyo Piyo sandals/Happy ring

Practical frame (low cost/initial): Vest/Leather boots/Amulet

Reason for selection/point of taste: For a girlfriend who is always sleepy, we recommend a soft shirt that looks like a nightgown and a ring that will help her live comfortably.

Doug / Shield

Resident name: Doug

Part: Shield

Romantic frame (emphasis on appearance): General Shield

Practical frame (low cost/initial): Iron Shield

Reason for selection/points of taste: The red and gold design (general) expresses the dignity of a former military leader. Reality prioritized dwarven ruggedness.

Others

Part: Other

Romantic frame (emphasis on appearance): General Robe/Night Boots/Badge of Courage

Practical frame (low cost/initial): Scale vest/heavy boots/cheap bracelet

Reason for selection/sensory points: His passionate personality and "hero" aspect are expressed through a name and icon that convey a sense of status.

Margaret / Shield

Resident name: Margaret

Part: Shield

Romantic frame (emphasis on appearance): Prism shield

Practical frame (low cost/initial): Magic Shield

Reason for selection/point of taste: Reflects the colors of her themes of "rainbow" and "music". In reality, he chooses a smart shield that is typical of a magician.

Others

Part: Other

Romantic frame (emphasis on appearance): Dragon cloak/Fairy boots/Ring of happiness

Practical frame (low cost/initial): Elf cloak/leather boots/sapphire ring

Reason for selection/sensory points: Based on the supplementary example, the Romantic frame symbolizes her deep connection with dragons, and the Realistic frame symbolizes her identity as a race (elf).

Unknown / Pending

Current Gate

- Item-by-item comparison with the current list of unresolved issues presented by Human HQ/Finding reflected
- Decide whether to create a final equipment plan for each character other than the 10 representatives or keep it as a record of candidate generation.
- Source Mapping for each cell when creating a table of 25 people
- Official English Name Verification Table for Equipment and Materials
- Reference Catalog image porting and visibility verification
- All propositions are checked against the current public version 09 and CSV by usage. The old CSV shield premise has been identified as Historical Record. Complete redesign based on current understanding has not been implemented
- Update of reinforcement order and arrangement success rate to Current observation
- Research Review PASS / Human HQ final version approved

Stop Boundary

This final version will be saved only in private Staging. Do not place, overwrite, move, or delete the public version folder unless there is an explicit production update instruction from Research Review and Human HQ.

Change Log

- v0.1: Created a skeleton that holds the old 10 Decision Context.
- v0.1: Clarified 09's shield performance and dual sword/fist boundaries.
- v0.1: Referring to the revised insertion section 9-5-5A of public version 09, the shield boundary of the protagonist/resident was updated from the old understanding.

v0.2: Re-edited equipment blocks by purpose into a summary table and reinforcement order table to improve readability for third parties.

- **v0.3: Identifies configurations that depend on old shield understanding as Historical Records, and clearly indicates that they are not currently redesigned.**
- v0.4: Updated the Version/State metadata at the beginning to clarify the old name boundary of "Self-contamination" and the Evidence State of 25% display.
- v0.5: Delete only the messilight 25% note from the 12 erroneous additions in the transcription section for late search, and update Current Gate to have been reflected in verification/Finding.
- v0.1: Integrated CSV by purpose into a searchable table without abbreviations.
- v0.1: Separate AI candidate generation record from final draft.
- v0.1: Complete comparison with the current list of unresolved issues is clearly marked as Pending.
- Official version: Closed Research Review with v0.5 as Content Authority and completed Operations Verification. Officialized as Japanese Canonical of Private Staging. Production placement authority has not been granted.
